PRODUCT HANDLING TABLES

Introducing our robust and versatile product handling tables, specifically designed for the demanding environment of food processing factories. These tables are built to withstand daily use, providing an ideal storage solution for food processing equipment. Made from high-quality stainless steel, they ensure longevity and resilience while meeting stringent food safety standards.

KEY FEATURE

Our tables feature adjustable height options with anchor feet, allowing for customization to suit your workspace needs. Additionally, they are equipped with screened purge collection systems to help maintain cleanliness and hygiene in food processing operations.

EFFICIENCY

We offer custom holding capacities to accommodate your specific equipment and storage requirements, and each table can be tailored to fit your unique needs, ensuring optimal functionality and efficiency in your food processing facility. Optimize your operations with our product handling tables, where durability meets customization for superior performance.

STANDARD OPTIONS

- Stainless Steel, open-frame construction
- Meets food safety standards
- Adjustable height with casters or anchor feet
- Screened purge collection
- Custom holding capacities
- Custom design on all tables to fit your needs

OTHER AVAILABLE TABLE OPTIONS

UNWRAPPING/DE-BOXING TABLE

The de-boxing/unwrapping table provides an efficient solution for product unwrapping. It features a designated clean and dirty side to prevent packaging debris from entering the conveyor system.

TABLE HOPPER

The table hopper, available in sizes from 500 lbs to 2,500 lbs, allows easy transfer from carts and provides inspection access, featuring a purge drain catch for added efficiency.
